

## **Note in relation to the agenda item Draft FOREST EUROPE Work Programme**

The Work Programme is a draft version submitted to the first Expert Level Meeting after the Madrid Conference (11-12 May 2016) for consideration and adoption.

Based on the recommendation of the General Coordinating Committee (GCC), signatories and observers are kindly invited to present their priorities among the activities listed in the draft Work Programme and corresponding interest to support their implementation. Such support could be in the form of voluntary donations, through taking a role as leading actors for the proposed actions and activities of the Work Programme, or any other support (financial or in-kind contributions) e.g. hosting foreseen events, launching studies, participating in working/expert groups.

Additional activities may also be proposed for consideration and adoption by ELM, taking into account availability of sufficient funding and capacity of LUB.
